

# INNOVATIVE SOLUTIONS

## Integrated Construction Center Digital Project Execution & Integration

**Bantrel Innovative Solutions** is a corporate initiative to challenge our brightest minds in pushing boundaries. **Spark** ideas transform into meaningful solutions to our clients & the industries we serve.

Engage • Discover • Transcend

### Integrated Construction Center

- Integrated data environment for all applications
- Datalake for storage & collaboration
- Web portal for user interface & execution
- Enhances unproductive business functions
- Improves direct craft productivity
- Analytics & reporting via powerBI
- Configurable 3D visualization

**B**antrel is the proud recipient of the CanBIM 2019 Innovation Spotlight Award. The award recognizes CanBIM members who demonstrate leadership and innovation through the implementation of digital technology, processes and methodologies.

Andrea Lee – Glaholt LLP Construction Lawyers, Duane Bearss -HBJV, Chris Taylor, - HBJV, Todd Hendry - BHP.

Bantrel's Integrated Construction Center (ICC) designed for the Jansen project was awarded the 'Technology In-House Award.' This is a remarkable achievement and was the result of significant development effort, focus and dedication by the entire HBJV team. This award demonstrates that Bantrel is an industry leader in construction productivity improvement through digital technologies and our proven construction work processes. The Innovation Spotlight allows Bantrel to set industry benchmarks and showcase its talent on the world stage.
